

## Enjoy our natural spa products

Only natural products and oils are used in our treatments.

## Massage Oils

Known as the "tree of life" in Balinese culture, the coconut is used as a vital source of nourishment, natural healing and harmonizing the body, mind and soul. Enjoy your body massage with our own handmade pure virgin coconut oil.

Referred to as "nature's living energy", aromatic essential oils have been recognized for more than 6,000 years for healing and relaxation. Inhaling their fragrance can be helpful in improving our physical, mental and emotional wellbeing. Combined with the soothing power of our traditional Balinese massage, these oils are absorbed through the skin and stimulate our natural immune system.

Select your favorite scent from our array of Desa Saya aromatherapy blends with pure virgin coconut oil:

*Pure Love Aphrodisiac*

*Lemongrass & Ylang-Ylang & Vetiver*

*Inner Peace*

*Peppermint & Lavender & Nutmeg & Orange*
